SKU #	Product Description	MSRP / List Price
100 -PM101-OP	Procurement Module - Unlimited Users - A procurement module is a key component of the system that streamlines the process of acquiring goods and services for a business. — Unit: Annual License	\$600,000.00
200-AM201-OP	Accounting Module - Unlimited Users - core component of the product that automates financial operations, including general ledger management, accounts payable, accounts receivable, billing, invoicing, and financial reporting. It ensures accurate financial recordkeeping, streamlines accounting workflows, and supports compliance with organizational and regulatory standards. — Unit: Annual License	\$500,000.00
300-BM301-OP	Budgeting Module - Unlimited Users - The Budgeting Module enables organizations to plan, allocate, and monitor financial resources across departments, projects, and business units. It supports budget creation, forecasting, variance analysis, and approval workflows, helping organizations make informed financial decisions and control spending. — Unit: Annual License	\$450,000.00
400-PAB401-OP	Procurement, Accounting and Budgeting Modules - Unlimited users - The Procurement, Accounting, and Budgeting Modules provide an integrated financial management solution that streamlines the complete procure-to-pay lifecycle. The platform enables organizations to plan budgets, manage procurement activities, process financial transactions, and monitor expenditures against approved budgets, ensuring financial transparency, operational efficiency, and regulatory compliance. — Unit: Annual License	\$1,100,000.00
101-PM101-OP	PAB Advanced Analytics - Advanced Analytics Module transforms operational and financial data into actionable insights through interactive dashboards, KPI monitoring, predictive analytics, and customizable reports. It enables organizations to identify trends, monitor performance, and make data-driven decisions in real time. — Unit: Annual License	\$100,000.00

001-IC2-OP	Interface Connector - Advanced - CRM and ITSM connection bundle - The Advanced Interface Connector provides a preconfigured integration framework for connecting the platform with leading Customer Relationship Management (CRM) and IT Service Management (ITSM) systems. It enables secure, real-time and batch data exchange using industry-standard APIs and integration protocols, ensuring seamless synchronization of customer, case, incident, service request, asset, and workflow data across systems. — Unit: Annual License	\$220,000.00
001-IC1-OP	Interface Connector - Standard bundle - The Standard Interface Connector Bundle provides foundational integration capabilities for securely exchanging data between the platform and common enterprise applications. It enables organizations to integrate core business systems through configurable interfaces, reducing manual data entry and ensuring consistent information across applications. — Unit: Annual License	\$150,000.00
001-IC3-OP	Single connector - Per interface - low and Mid complexity - A Low-Complexity Single Connector provides a point-to-point integration between the platform and a single external application or data source. It supports straightforward data exchanges using standard APIs, file transfers, or database connections with minimal transformation and business logic requirements. — Unit:	\$50,000.00
001-IC4-OP	Single connector - Per interface - High complexity - Provides a dedicated integration interface between the platform and a single external system for high-complexity integration scenarios requiring advanced business logic, multiple data objects, and sophisticated orchestration. Pricing is based on one interface connection. — Unit: Annual License	\$100,000.00
400-PAB402-OP	Procurement, Accounting and Budgeting Modules - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$96,000.00
400-PAB403-OP	Procurement, Accounting and Budgeting Modules - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$84,000.00
400-PAB404-OP	Procurement, Accounting and Budgeting Modules - Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$60,000.00

100 -PM102-OP	Procurement Module - Per member per month (1-100 users) - Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Procurement Module, regardless of usage volume. — Unit: Annual License	\$60,000.00
100 -PM103-OP	Procurement Module - Per member per month (101-500 users) - Procurement Module – Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Procurement Module, regardless of usage volume. — Unit: Annual License	\$42,000.00
100 -PM104-OP	Procurement Module - Per member per month (501-1000 users) - Procurement Module – Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Procurement Module, regardless of usage volume. — Unit: Annual License	\$36,000.00
200-AM202-OP	Accounting Module - Per member per month (1-100 users) - Accounting Module – Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Accounting Module, regardless of usage volume. — Unit: Annual License	\$46,800.00
200-AM203-OP	Accounting Module - Per member per month (101-500 users) - Accounting Module – Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Accounting Module, regardless of usage volume. — Unit: Annual License	\$30,000.00
200-AM204-OP	Accounting Module - Per member per month (501-1000 users) - Accounting Module – Per Member Per Month (PMPM): Licensed on a per-seat, named-user basis, where each authorized individual is assigned a dedicated license. Charges are billed monthly for each named user with access to the Accounting Module, regardless of usage volume. — Unit: Annual License	\$20,400.00
300-BM302-OP	Budgeting Module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$18,000.00

300-BM303-OP	Budgeting Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$17,400.00
300-BM304-OP	Budgeting Module - Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$16,800.00
400-PAB405-OP	Custom Subscription based on organizational need. This includes custom feature set for specific needs in PAB modules (less than 500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$96,000.00
001-IC5-OP	Service Now Connector - The ServiceNow Connector enables seamless integration between the platform and ServiceNow, allowing organizations to synchronize IT service management (ITSM) data and automate workflows across business and support operations. It helps streamline incident management, service requests, asset management, and operational processes by ensuring consistent, real-time data exchange. — Unit: Annual License	\$75,000.00
600-SSO1-OP	Single Sign-On Connector - The Single Sign-On (SSO) Connector enables seamless and secure user authentication by integrating the platform with enterprise Identity and Access Management (IAM) providers. It allows users to access the application using their existing corporate credentials, improving user experience while strengthening security and simplifying user administration. — Unit: Annual License	\$30,000.00
400-PAB410-OP	PAB - Pre-Production or test instance - Individual modules or entire product. This line item represent cost of one lower environment instance (Non Production), depending on customer needs. — Unit: Annual License	\$120,000.00
800-PAB001-OP	Snowflake Connector - The Snowflake Connector provides secure, high-performance integration between the platform and Snowflake Data , enabling organizations to exchange, synchronize, and analyze large volumes of data for reporting, analytics, and business intelligence. — Unit: Annual License	\$101,000.00
500-Host100-OP	Datawarehouse, custom reports and compute package - (less than 500 users) — Unit: Annual	\$250,000.00
800 -GM-102-OP	Grants Management Module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$61,200.00

800 -GM-103-OP	Grants Management Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00
800 -GM-104-OP	Grants Management Module- Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
900-ITAM FM - 102-OP	Information Technology Request Fulfillment Module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$24,000.00
900-ITAM FM - 103-OP	Information Technology Request Fulfillment Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$21,600.00
900-ITAM FM - 104-OP	Information Technology Request Fulfillment Module - Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$18,000.00
1001-VM- 102-OP	Vendor Management module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$38,400.00
1001-VM - 103-OP	Vendor Management Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
1001-VM - 104-OP	Vendor Management module- Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$30,000.00
1002-LG-102-OP	Legacy business rules extractor tool to capture the business rules - A legacy rules extractor is an automated tool to scan and analyze old software code. It uncovers hidden business logic—such as pricing algorithms, compliance checks, business rules and workflows—and translates it into understandable documentation, so that those can be implemented in new system. — Unit: Annual License	\$300,000.00

1002- SB - 102-OP	Legislative Bill Management module - Per member per month (1-100 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00
1002- SB - 103-OP	Legislative Bill Management module - Per member per month (101-500 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
1002- SB - 104-OP	Legislative Bill Management module - Per member per month (501-1000 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$32,400.00
103-IM-106-OP	Invoice Management Module - Per member per month (1 - 100 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$72,000.00
103-IM-107-OP	Invoice Management Module - Per member per month (101 - 500 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00

103-IM-108-OP	Invoice Management Module - Per member per month (501 - 1000 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$32,400.00

500-Host100	Datawarehouse as SaaS, custom reports, hosting and compute package - (less than 500 users) — Unit: Annual License	\$250,000.00
800 -GM-102	Grants Management Module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$61,200.00

800 -GM-103	Grants Management Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00
800 -GM-104	Grants Management Module- Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
900-ITAM FM - 102	Information Technology Request Fulfillment Module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$24,000.00
900-ITAM FM - 103	Information Technology Request Fulfillment Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$21,600.00
900-ITAM FM - 104	Information Technology Request Fulfillment Module - Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$18,000.00
1001-VM- 102	Vendor Management module - Per member per month (1-100 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$38,400.00
1001-VM - 103	Vendor Management Module - Per member per month (101-500 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
1001-VM - 104	Vendor Management module- Per member per month (501-1000 users) - One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$30,000.00
1002-LG-102	Legacy business rules extractor tool to capture the business rules - A legacy rules extractor is an automated tool to scan and analyze old software code. It uncovers hidden business logic—such as pricing algorithms, compliance checks, business rules and workflows—and translates it into understandable documentation, so that those can be implemented in new system. — Unit: Annual License	\$300,000.00

1002- SB - 102	Legislative Bill Management module - Per member per month (1-100 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00
1002- SB - 103	Legislative Bill Management module - Per member per month (101-500 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$36,000.00
1002- SB - 104	Legislative Bill Management module - Per member per month (501-1000 users) - A bill Management Module is a specialized software designed to manage, store, process, extract, and interpret data from financial or legislative documents. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$32,400.00
103-IM-106	Invoice Management Module - Per member per month (1 - 100 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$72,000.00
103-IM-107	Invoice Management Module - Per member per month (101 - 500 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$42,000.00

103-IM-108	Invoice Management Module - Per member per month (501 - 1000 users) The Invoice Management Module streamlines the creation, validation, approval, processing, and tracking of invoices throughout their lifecycle. It automates invoice workflows, reduces manual effort, improves accuracy, and ensures timely payments while maintaining compliance with organizational financial policies. One dedicated license per authorized user, billed on a Per Member Per Month (PMPM) basis. Licenses are non-concurrent and assigned to individual users — Unit: Annual License	\$32,400.00
